

**We played Pin the Tail on the Deer** and I won. It was fun. I drew the deer and me and mummy painted it.

**We had a special guest for the Joke Competition**, and it was my Nanny. She said that I won the first two and daddy won the last one.

**We built Marshmallow Towers** and daddy's was the tallest, mine was the shortest and mummy's was medium, but mine was the strongest.

**We played games outside.** This one was Cow Cow Bull and mummy ran around the circle and fell on daddy. Snowstorm ate grass and Zoomer jumped on me.

I taught Snowstorm how to walk on a lead.

**We had another special guest for the Animal Freeze game** and it was Aunty AMs. She yelled out an animal, we had to act like it and she could yell out freeze and we had to freeze. Then she would say who won that round. I won the actual thing because I got the most wins.

**And two more special guests for the Make an Animal game,** Grandma and Grandpa. How you played is you had to pick an animal out of a container and we got 90 seconds to go around the house and use at least two things that must be inside the house. And Grandma and Grandpa had to guess what animal we were. At the end we sent Grandpa off to try make himself into a goat and Tasmanian devil.

**We finished the day by** watching funny animal videos and mummy got scared of all the rats which made me laugh.

**My favorite part of Animal Jam** was everything because it was really fun but my most favorite part was the funny animal videos.
